“ Jim was my brother and we always had great times together. I remember when Grandmother Cavey used to try and blame me for things that i did not do and Jim would tell her Tommy didn't do it I did. I am going to miss him so much. He helped hand built our kitchen cabinets in our first house the way Debbie wanted. He could do anything he set his mind to Does anyone remember how he used to put his hands up to his eyes and do his wave with them when he accomplished something? Love you always Brother.

“ Jimmy was like a brother to me. Like everyone in the Cavey and Flair family, I owe so much to our friendship. Rest in peace, my friend.

“ Jimmy became one of my big brothers when I was very young . Don't even remember what year. The Caveys and the Monagahans became closer than some families . I'm sure there were many times when Jimmy wanted to kick my butt. I was the youngest of the 2 families. And somewhat of a brat lol. Jimmy being the oldest had to put up with alot of our crap. He was the first driver so he transported the group to Cramers pool in the summer and then to the drive in movie theater in Harpers ferry. The path between the 2 houses on Mt. View rd . and Sand hill rd was worn bare from all the foot traffic between the 2 . I could go on and on with the memories but it would max the site. Love you Jimmy , fly High on angels wings and say Hi to all the loved ones waiting to welcome you home .
